## Important: Know the Difference Between Canceling, Uninstalling, and Disabling

Before you take any action, you need to understand what each term actually means because using the wrong method will not stop your payments. (+1) 877 419 8702 Canceling your Avast plan means ending your paid subscription so that Avast will not renew and you stop paying forever. (+1) 877 419 8702 The software may still be on your computer, but no future charges will occur. (+1) 877 419 8702 Stopping auto renewal means turning off the automatic payment feature, which is essentially the same as canceling for most people. (+1) 877 419 8702 Uninstalling removes the Avast software from your device but does nothing to your subscription, so you will still be billed on your renewal date. (+1) 877 419 8702 Disabling temporarily turns off Avast's protection for a few minutes or hours, but it also does not stop your payments.

(+1) 877 419 8702 Here is the most important thing to remember: if you want to stop paying, you must cancel your plan or turn off auto renewal.

(+1) 877 419 8702 Uninstalling and disabling will not save you any money.

(+1) 877 419 8702 If you need help, call Avast customer support at

(+1) 877 419 8702 and they can guide you through the process.

## Before You Cancel Your Avast Plan

Canceling your Avast plan leaves your computer unprotected, so you should prepare before you cancel. (+1) 877 419 8702 Make sure you have another antivirus solution ready, such as Windows Defender which is free and already built into Windows, or the built-in security on a Mac. (+1) 877 419 8702 If you want to switch to another paid antivirus, install it before you cancel Avast so that you are never unprotected. (+1) 877 419 8702 Also, check your current expiration date in your Avast account because if you cancel in the middle of a paid period, you may lose access to the remaining time. (+1) 877 419 8702 Some people prefer to turn off auto renewal instead of canceling immediately so that they keep their protection until the paid period ends. (+1) 877 419 8702 Avast's refund policy typically allows refunds within thirty to sixty days of purchase, so if you are within that window, you can also get your money back. (+1) 877 419 8702 If you are outside that window, you can still cancel to stop future charges, but you will not get a refund for the current period. (+1) 877 419 8702 For any questions about your specific situation, call (+1) 877 419 8702 and speak to an Avast support representative. (+1) 877 419 8702

## Fastest Way to Cancel Your Avast Plan Directly on the Website

The fastest and most reliable way to cancel your Avast plan is through your Avast account on the website. (+1) 877 419 8702 First, open your web browser and go to [account.avast.com](https://account.avast.com). (+1) 877 419 8702 Sign in with your email address and password; if you forgot your password, click the "Forgot password" link to reset it immediately. (+1) 877 419 8702 Once you are signed in, look for "Subscriptions" or "My Subscriptions" and click it. (+1) 877 419 8702 You will see a list of every Avast product you own, including active and expired plans. (+1) 877 419 8702

Find the subscription you want to cancel and click on it. (+1) 877 419 8702 Look for a link or button that says "Cancel Subscription," "Turn Off Auto Renewal," or "Manage Renewal." (+1) 877 419 8702 The exact wording may change over time, but the meaning is the same. (+1) 877 419 8702 Click that button, and Avast will ask you to confirm your choice. (+1) 877 419 8702 They may offer you a discount to stay, such as fifty percent off for the next year; if you still want to cancel, simply decline and continue clicking through the confirmation screens. (+1) 877 419 8702 After you cancel, you will receive a confirmation email within a few minutes, and you must save this email because it is your proof that auto renewal is turned off. (+1) 877 419 8702 Your Avast protection will continue working until your current paid period ends, and after that date, Avast will stop protecting your computer and you will not be charged again. (+1) 877 419 8702 This entire process takes less than five minutes if you have your login information ready. (+1) 877 419 8702 If you get stuck at any step, call (+1) 877 419 8702 and a support agent can cancel for you over the phone. (+1) 877 419 8702

## How to Stop Auto Renewal Without Losing Remaining Time

Some people want to stop future payments but do not want to lose access to the time they have already paid for. (+1) 877 419 8702 In that case, you should turn off auto renewal instead of canceling the plan immediately. (+1) 877 419 8702 To do this, sign in to [account.avast.com](https://account.avast.com) and go to Subscriptions. (+1) 877 419 8702 Find your Avast product and click "Manage Renewal" or "Billing Settings." (+1) 877 419 8702 Look for an option that says "Auto Renewal" or "Automatic Renewal" and toggle it to "Off" or "Do Not Renew." (+1) 877 419 8702 Avast will confirm your choice, and you may be offered a discount to stay; decline if you want to stop auto renewal. (+1) 877 419 8702 Your subscription will now expire on its current end date, and Avast will not charge you again. (+1) 877 419 8702 This method is perfect for people who want to use Avast until their paid period ends but never pay again. (+1) 877 419 8702 It is also the fastest way to stop auto renewal because you do not need to request a refund or deal with any cancellation fees. (+1) 877 419 8702 If you cannot find the auto renewal toggle, call Avast at (+1) 877 419 8702 and ask them to turn it off for you. (+1) 877 419 8702

## How to Cancel If You Bought Avast Through Apple (App Store)

If you purchased your Avast plan through the Apple App Store on your iPhone, iPad, or Mac, you cannot cancel through Avast and you must cancel through Apple instead. (+1) 877 419 8702 On an iPhone or iPad, open the Settings app, tap your name at the top, then tap "Subscriptions." (+1) 877 419 8702 Find Avast in the list, tap "Cancel Subscription," and confirm your choice. (+1) 877 419 8702 On a Mac, open the App Store, click your name in the bottom left corner, then click "View Information." (+1) 877 419 8702 Scroll to Subscriptions, click "Manage," find Avast, and click "Cancel." (+1) 877 419 8702 Apple handles all billing for App Store purchases, so Avast has no control over your payments. (+1) 877 419 8702 After you cancel through Apple, your Avast protection will continue until the end of your paid period, and you will not be charged again. (+1) 877 419 8702 If you want a refund, you must request it from Apple at [reportaproblem.apple.com](https://reportaproblem.apple.com), not from Avast. (+1) 877 419 8702 If you have any trouble canceling through Apple, you can call Avast at (+1) 877 419 8702 for advice, but Avast cannot process the cancellation for you. (+1) 877 419 8702

(+1) 877 419 8702 Find Avast in the list, tap "Cancel subscription," and follow the prompts. (+1) 877 419 8702 Google will ask you to confirm your choice, and after you confirm, your subscription will be canceled and auto renewal will stop. (+1) 877 419 8702 Your Avast protection will continue until your current paid period ends. (+1) 877 419 8702 If you want a refund, you must request it from Google within the refund window, typically forty-eight hours for automatic approval or up to fourteen days if you contact support. (+1) 877 419 8702 Avast cannot refund you for Google Play purchases because Google collected your payment. (+1) 877 419 8702 If you have trouble finding the cancellation option in Google Play, call Avast at (+1) 877 419 8702 and they can guide you through the steps. (+1) 877 419 8702

## What If You Cannot Find the Cancel Button?

Sometimes the cancel button is not obvious, but Avast does not hide it.

(+1) > 877 > 419 > 8702 If you are in the Subscriptions section and you do not see "Cancel Subscription," look for a button that says "Manage Renewal" instead.

(+1) > 877 > 419 > 8702 Click that, and the cancellation option will be inside the next page. (+1) > 877 > 419 > 8702 If you still cannot find it, try using a different web

browser or clearing your browser cache because sometimes the page does not load correctly. (+1) > 877 > 419 > 8702 If none of that works, call Avast customer support

at (+1) > 877 > 419 > 8702 and tell the representative that you want to cancel your plan and stop auto renewal. (+1) > 877 > 419 > 8702 Have your account email

address ready, and support will process the cancellation for you over the phone.

(+1) > 877 > 419 > 8702 This is the fastest solution if you are having technical

problems with the website. (+1) > 877 > 419 > 8702 Some users have reported that

the cancel button only appears after you click through a "Save Your Subscription"

offer, so keep clicking until you see the final confirmation. (+1) > 877 > 419 > 8702

## How to Verify That Your Avast Plan Is Really Canceled

After you cancel your Avast plan or turn off auto renewal, you need to verify that the cancellation worked so you are not surprised by a future charge.

(+1) > 877 > 419 > 8702 First, check your email for a confirmation message from Avast; if you do not see it within an hour, check your spam folder.

(+1) > 877 > 419 > 8702 Save this email as proof of cancellation.

(+1) > 877 > 419 > 8702 Second, sign back into your Avast account at

[account.avast.com](https://account.avast.com) and go to Subscriptions. (+1) > 877 > 419 > 8702 Your subscription should show "Expires on [date]" with no mention of automatic renewal.

(+1) > 877 > 419 > 8702 If you turned off auto renewal only, it should say "Auto

renewal: Off." (+1) > 877 > 419 > 8702 Third, take a screenshot of this page and save it as additional proof. (+1) > 877 > 419 > 8702 Fourth, mark your next renewal date on a

calendar and check your credit card statement a few days after that date.

(+1) > 877 > 419 > 8702 If no charge appears, you are safe. (+1) > 877 > 419 > 8702 If a charge does appear, call Avast support immediately at (+1) > 877 > 419 > 8702 and

dispute the charge with your credit card company. (+1) > 877 > 419 > 8702 By taking these verification steps, you will never be surprised by an unwanted Avast charge

again. (+1) > 877 > 419 > 8702

## What to Do If Avast Keeps Charging You After You Cancel

If you canceled your Avast plan but Avast charged you anyway, do not panic because this happens more often than it should. (+1) 877 419 8702 First, check your cancellation confirmation email to find the exact date you canceled.

(+1) 877 419 8702 If you canceled after the renewal date had already passed, the charge may be legitimate for the next period, and you will need to request a refund. (+1) 877 419 8702 Second, call Avast customer support at (+1) 877 419 8702 and tell them you canceled but were charged, providing your account email and the date of the charge. (+1) 877 419 8702 Avast's refund policy typically allows refunds within thirty to sixty days, so they will likely refund you if you are within that window. (+1) 877 419 8702 Third, if Avast refuses to refund you, contact your credit card company and dispute the charge, telling them you canceled the subscription before the renewal date; most credit card companies side with the customer in these situations. (+1) 877 419 8702 Fourth, after getting your refund, double-check that auto renewal is off by signing into your Avast account again and verifying. (+1) 877 419 8702 If you cannot sign in, ask support to confirm that your account is marked as canceled. (+1) 877 419 8702 To prevent this from happening again, always save your cancellation confirmation email and check your credit card statement after every renewal date.
