## Important: Why You Should Check Your Avast Subscription Regularly

Checking your Avast subscription regularly can save you money and prevent unwanted renewals. (+1) 877 419 8702 When you know your expiration date, you can decide whether to cancel before auto renewal kicks in.

(+1) 877 419 8702 You can also see how many devices you are using so you can deactivate old devices and free up slots for new ones. (+1) 877 419 8702

Additionally, checking your subscription lets you verify that your payment method is up to date to avoid service interruptions. (+1) 877 419 8702 If you bought Avast through a third party, you need to check in that third party's system because Avast may not show your correct expiration date. ## What to Do If You Cannot Find Your Subscription Information

Sometimes you may try to check your subscription but find nothing.

(+1) 877 419 8702 Here are the most common reasons and solutions.

(+1) 877 419 8702 First, you may be signed into the wrong Avast account; try signing out and signing back in with a different email address you might have used.

(+1) 877 419 8702 Second, you may have purchased through Apple or Google, and Avast's website will not show those subscriptions; check in the respective store instead. (+1) 877 419 8702 Fourth, you may have used a different email address at the time of purchase, such as a work email or a family member's email. (+1) 877 419 8702 Fifth, if you bought a physical box with a product key, you need to activate that key in your Avast account

before it will appear online. (+1) 877 419 8702 If none of these solutions work, call Avast customer support at (+1) 877 419 8702 and provide them with your name, email address, and any credit card or order information you have.
